**Subject:** Diebold Electrion Equipment

Dear Mr. McDannold:

Please keep Diebold Election equipment out of California. It has already proved unreliable here, in San Diego. It does not provide a reliable trail, and can be tinkered with to change the numbers.

It would be better to have punch cards with all their problems than to have Diebold equipment. I'm from Ohio originally so I know something about the Diebolds.

Sincerely, Mary Lou Schram, 22 Temelec Circle, Sonoma 95476
